Richmond, Jan. 7

**Virginia Legislature.**

Yesterday, Mr. Smythe made a Report to the H. of D. from the Armory Committee—which being received and read, he offered a resolution, that it was expedient, to augment the salaries of the Master-Armorer, Assistant Armorer, and Clerk of the Armory—which was rejected.

A report of the C. of P. & G. in favor of removing the Seat of Justice in Prince William County, from Dumfries &c. was discussed—Mr. Heath in opposition to the Report, and Mr. Foster in favor of it—the report was finally accepted by the house, by a majority of 84.

A report was read from the C. of R. & I. N. proposing a new scheme for amending the several road laws: the bill accompanying the report was read the first and second times and committed to the committee of the Whole and made the order of the day for Thursday.

**NEW BANK BILL.**

The engrossed bill for establishing sundry new banks within this commonwealth was taken up, and the several blanks were filled. The semi annual instalments for paying the bonus were fixed at 30. The time for the expiration of the charter was fixed on the 31st of May, 1834, the period when the B. of Virginia expires; thus giving an opportunity, as Mr. Mercer suggested, for passing in review the whole banking system. The lowest note which the banks will be permitted to issue is \$5, corresponding with the present banks. Mr. Mercer said, if any change were necessary in this respect, it might be done hereafter by law. The sum which the Litterary Fund Bank at Norfolk may subscribe to the Roanoke Navigation is fixed at 500,000 dollars. The capital of the bank at W. the Court House was fixed at 174,000 dollars; that at Wheeling, at 200,000 dollars; and that at Morefield, at 200,000.

The blanks being filled, the question was on the final passage of the bill, Mr. Blackburn rose to address the House, and spoke a considerable time; but a hasty sketch can do no sort of justice to his speech.

Mr. Robertson, P. rose merely to account for the difference which would appear between the vote which he gave on a former occasion, for postponing the resolutions to the 31st March, and that which he should now give. He had on that occasion expressed the best dictate of his own judgement: but he had since received a memorial subscribed by a large number of his constituents instructing him to vote for a Litterary Fund Bank in Petersburg, he felt himself bound on principle to obey the instructions of his constituents.

No person rising to speak, the question on the passage of the bill was put by Ayes and Noes, and carried, Ayes 80, Noes 78.

**TREASURY CIRCULAR.**

Treasury Department, Dec. 30th, 1817.

Sir—I have received notice from the President and Directors of the Bank of the United States, that the Bank will commence its operations in Philadelphia, on the first day of the next year, and that they will be ready on that day to receive the public monies deposited in the State Banks, and hold them subject to the orders of the Treasury. Like notices are expected upon the establishment of Branch Banks in the principal commercial cities. Before any definite decision is made upon this proposition, it is deemed expedient to ascertain the course which the state banks in those cities will pursue in relation to the resumption of specie payments. If the determination of the banks to resume specie payments on the 1st of July, 1817, which has been communicated to this department, is persevered in, there will be no hesitation in ordering the transfer to be made with a little delay as the interest of the community will admit. As an inducement to change that determination, it is proposed on the part of the Treasury, that if the state banks will resume specie payments on the 20th day of February next, that the public money now in their vaults shall not be transferred to those of the Bank of the United States, and that between that day and the 1st of July next, as small a portion of that sum shall be drawn as the demands upon the treasury will admit. As the receipts into the treasury during the year will probably exceed the current demands upon the treasury, it is proposed to discharge those demands principally from the current receipts, until after the first day of July, 1817; subsequent to that day, the money will be drawn for as the demands upon the treasury may require; but, in no case shall it be drawn for the purpose of being deposited in the Bank of the United States, except to sustain it against any pressure which may be attempted to be made upon it or its branches. The means of the treasury to aid the operations of banks in effecting a revolution in the state of the currency, so imperiously necessary to the public interest, are considered simple, and the strongest disposition exists to apply them so as to produce the most beneficial results. The power of transferring such portion of the deposits, with a view to equalize the benefits resulting from them among the banking community, as the situation of the several

banks may require, is expressly reserved.

In making this proposition to the state banks, the strongest reliance is placed on their disposition to join in the effort necessary to relieve the community from the evils to which it has been subjected by the disordered state of the circulation of currency. It is confidently believed that the interests of the banks and of the community are not in opposition to each other, and that any sacrifice which the effort may cost them will be compensated by the advantages and facilities which it is in the power of the treasury to afford them. In deciding upon the question submitted to their consideration, the friendly character and disposition of the Bank of the United States towards them ought not to be overlooked.

The deep interest which the treasury has in the support of bank credit, and the connection which it has with the Bank of the United States, would, independent of the known disposition of that institution to conciliate the State Banks, be sufficient to protect them against an illiberal policy on its part.

In closing this communication, I am compelled to state, that there exists no reason to expect that the resolution of the last session of Congress relative to the collection of the revenue after the 26th of February next, will be rescinded. An early communication of the decision of the institution over which you preside is respectfully requested.

**WM. H. CRAWFORD,**

Secretary of the Treasury.

The President of the Bank of

**ISLAND OF ST. DOMINGO.**

We have published Petion's Proclamation of Nov. 12, relative to the commissioners sent by Louis 18. to negotiate with him for the return of St. Domingo to its colonial connexion with France. We now insert the terms offered by the commissioners and Petion's laconic reply to them.

(Baltimore Patriot.)

Terms offered by the Commissioners of Louis XVIII to General Petion.

Art. 1. The abolition of slavery shall be forever decreed in St. Domingo.

Art. 2. Civil and political rights shall be granted to every class of Citizens the same as in France.

Art. 3. The army shall be retained on the same footing as at present. The general and all other officers shall be confirmed by the king according to their respective ranks, and shall enjoy the same pay and distinction as the officers in the French Army.

Art. 4. The king shall never send European troops to St. Domingo. The defence of the colony shall be confided to the courage and fidelity of the indigenous army, which shall never be employed out of the colony.

Art. 5. The President of the republic, and the Senators shall retain their prerogatives, and the latter their attributes (titles); they will remain as well as the administrative and judicial authorities, provisionally as they are, excepting those modifications proposed and elected by themselves with the consent of the commissioners of the King; and in case of future changes they can only be made according to the principle established in the revision of the constitutional acts.

Art. 6. The Old Colonists shall not arrive nor reside in the colony, without submitting to the laws and regulations that shall be established, particularly those which relate to the state of persons and civil rights.

Art. 7. There shall be established by the actual authorities in concert with the Commissioners, a general regulation relative to property in order to put an end to uncertainties and prevent fresh disturbances, which might be created to prevent the re-establishment of the colony.

Art. 8. The present president shall have the title of governor general of the colony; the actual commandant general of the army shall be appointed lieutenant general of the government. They shall both retain the powers which they at present enjoy, with the modifications which the state of things may require; but which shall not be effected without the consent. In future the shall be appointed by the king, from a presentation of three candidates chosen by the senate.

Art. 9. The ports shall continue open to all powers, on the same condition as at present; the same according to circumstances, and the command of the governor general, reserving the king can modify those conditions.

Art. 10. The king will exert his influence with his holiness (the Pope) to obtain a bishopric for this colony, and every other spiritual successor, which may ensure the people essential happiness.

Art. 11. All the king's concessions may be extended to the north and west, as well as to the south of the colony.

Art. 12. The "Institutional Act" shall be revised during the present year by the senate, that there may be made in concert with the commissioners of the king, every requisite regulation in the order which they are to be established. The king shall be supplicated to receive it, after its revision, and to guarantee it as well for himself as his successors.

To the above terms the president, Alexander Petion, answered, "The people of Hayti wish to be free and independent; I also wish it; and they shall be so. They require no foreign support; their own strength will protect their liberties."

**Virginia Legislature.**

Yesterday, Mr. Smythe made a Report to the H. of D. from the Armory Committee—which being received and read he offered a resolution, that it was expedient, to augment the salaries of the Master-Armorer, Assistant Armorer, and Clerk of the Armory—which was rejected.

A report of the C. of P. & G. in favor of removing the Seat of Justice in Prince William County, from Dumfries &c. was discussed—Mr. Heath in opposition to the Report, and Mr. Foster in favor of it—the report was finally accepted by the house, by a majority of 84.

A report was read from the C. of R. & I. N. proposing a new scheme for amending the several road laws: the bill accompanying the report was read the first and second times and committed to the committee of the Whole and made the order of the day for Thursday.

**NEW BANK BILL.**

The engrossed bill for establishing sundry new banks within this commonwealth was taken up, and the several blanks were filled. The semi annual instalments for paying the bonds were fixed at 30. The time for the expiration of the charter was fixed on the 31st of May, 1834, the period when the B. of Virginia expires; thus giving an opportunity, as Mr. Mercer suggested, for passing in review the whole banking system. The lowest note which the banks will be permitted to issue is \$5, corresponding with the present banks. Mr. Mercer said, if any change were necessary in this respect, it might be done hereafter by law. The sum which the Litterary Fund Bank at Norfolk may subscribe to the Roanoke Navigation is fixed at 500,000 dollars. The capital of the bank at W. the Coast House was fixed at 174,000 dollars; that at Wheeling, at 200,000 dollars; and that at Morefield, at 200,000.

The blanks being filled, the question was on the final passage of the bill, Mr. Blackburn rose to address the House, and spoke a considerable time: but a hasty sketch can do no sort of justice to his speech.

Mr. Robertson, P. rose merely to account for the difference which would appear between the vote which he gave on a former occasion, for postponing the resolutions to the 31st March, and that which he should now give. He had on that occasion expressed the best dictate of his own judgement: but he had since received a memorial subscribed by a large number of his constituents instructing him to vote for a Literary Fund Bank in Petersburg: he felt himself bound on principle to obey the instructions of his constituents.

No person rising to speak, the question on the passage of the bill was put by Ayes and Noes, and carried, Ayes 80. Noes 78.

**TREASURY CIRCULAR.**

Treasury Department, } Dec. 20th, 1817. }

Sir—I have received notice from the President and Directors of the Bank of the United States, that the Bank will commence its operations in Philadelphia, on the first day of the next year, and that they will be ready on that day to receive the public monies deposited in the State Banks, and hold them subject to the orders of the Treasury. Like notices are expected upon the establishment of Branch Banks in the principal commercial cities. Before any definite decision is made upon this proposition, it is deemed expedient to ascertain the course which the state banks in those cities will pursue in relation to the resumption of specie payments. If the determination of the banks to resume specie payments on the 1st of July, 1817, which has been communicated to this department, is persevered in, there will be no hesitation in ordering the transfer to be made with a little delay as the interest of the community will admit. As an inducement to change that determination, it is proposed on the part of the Treasury, that if the state banks will resume specie payments on the 20th day of February next, that the public money now in their vaults shall not be transferred to those of the Bank of the United States, and that between that day and the 1st of July next, as small a portion of that sum shall be drawn as the demands upon the treasury will admit. As the receipts into the treasury during the year will probably exceed the current demands upon the treasury, it is proposed to discharge those demands principally from the current receipts, until after the first day of July, 1817; subsequent to that day, the money will be drawn for as the demands upon the treasury may require; but, in no case shall it be drawn for the purpose of being deposited in the Bank of the United States, except to sustain it against any pressure which may be attempted to be made upon it or its branches. The means of the treasury to aid the operations of banks in effecting a revolution in the state of the currency, so imperiously necessary to the public interest, are considered simple, and the strongest disposition exists to apply them so as to produce the most beneficial results. The power of transferring such portion of the deposits, with a view to equalize the benefits resulting from them among the banking community, as the situation of the several

banks may require, is expressly reserved.

In making this proposition to the state banks, the strongest reliance is placed in their disposition to join in the effort necessary to relieve the community from the evils to which it has been subjected by the disordered state of the currency. It is confidently believed that the interests of the banks and of the community are not in opposition to each other, and that any sacrifice which the effort may cost them will be compensated by the advantages and facilities which it is in the power of the treasury to afford them. In deciding upon the question submitted to their consideration, the friendly character and disposition of the Bank of the United States towards them ought not to be overlooked.

The deep interest which the treasury has in the support of bank credit, and the connection which it has with the Bank of the United States, would, independent of the known disposition of that institution to conciliate the State Banks, be sufficient to protect them against an illiberal policy on its part.

In closing this communication, candor compels me to state, that there exists no reason to expect that the resolution of the last session of Congress relative to the collection of the revenues after the 29th of February next, will be rescinded.

An early communication of the decision of the institution over which you preside is respectfully requested.

**WM. H. CRAWFORD,**

Secretary of the Treasury.

The President of the Bank of

**ISLAND OF ST. DOMINGO.**

We have published Petion's Proclamation of Nov. 12, relative to the commissioners sent by Louis 18. to negotiate with him for the return of St. Domingo to its colonial connexion with France. We now insert the terms offered by the commissioners and Petion's laconic reply to them.

(Baltimore Patriot.)

Terms offered by the Commissioners of Louis XVIII to General Petion.

Art. 1. The abolition of slavery shall be forever decreed in St. Domingo.

Art. 2. Civil and political rights shall be granted to every class of Citizens the same as in France.

Art. 3. The army shall be retained on the same footing as at present. The general and all other officers shall be confirmed by the king according to their respective ranks, and shall enjoy the same pay and distinction as the officers in the French Army.

Art. 4. The king shall never send European troops to St. Domingo. The defence of the colony shall be confided to the courage and fidelity of the indigenous army, which shall never be employed out of the colony.

Art. 5. The President of the republic, and the Senators shall retain their prerogatives, and the latter their attributes [titles]; they will remain as well as the administrative and judicial authorities, provisionally as they are, excepting there be modifications proposed and effected by themselves with the consent of the commissioners of the King; and in case of future changes they can only be made according to the principle established in the revision of the constitutional acts.

Art. 6. The Old Colonists shall not arrive nor reside in the colony, without submitting to the laws and regulations that shall be established, particularly those which relate to the state of persons and civil rights.

Art. 7. There shall be established by the actual authorities in concert with the Commissioners, a general regulation relative to property; in order to put an end to uncertainties and prevent fresh disturbances, which might be created to prevent the re-establishment of the colony.

Art. 8. The present president shall have the title of governor general of the colony; the actual commandant general of the army shall be appointed lieutenant general of the government. They shall both retain the powers which they at present enjoy, with the modifications which the state of things may require; but which shall not be effected without their consent. In future they shall be appointed by the king, from a presentation of three candidates chosen by the senate.

Art. 9. The ports shall continue open to all powers, on the same condition as at present; the same according to circumstances, and the command of the governor general, reserving the king can modify those conditions.

Art. 10. The king will exert his influence with his holiness (the Pope) to obtain a bishoprick for this colony, and every other spiritual superior, which must ensure the people essential happiness.

Art. 11. All the king's concessions may be extended to the north and west, as well as to the south of the colony.

Art. 12. The "Institutional Act" shall be revised during the present year by the senate, that these may be made in concert with the commissioners of the king, every requisite regulation in the order which they are to be established. The king shall be supplicated to receive it, after its revision, and to guarantee it as well for himself as his successors.

To the above terms the president, Alexander Petion, has agreed. "The people of Hayti wish to be free and independent; I also wish it; and they shall be so. They require no foreign support; their own strength will protect them."

## JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York.

### A FRESH SUPPLY

Of the following genuine Medicines. For the prevention and cure of Bilious and Malignant Fevers, is recommended

### Hahn's Anti-Bilious Pills

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern Middle States, particularly in N. York Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age. They are excellently adapted to counteract superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is, so often of fatal consequences. A dose never fails to remove a cold taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

### HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age and in every situation, of various dangerous complaints arising from worms, and from obstructions of foulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and most purgative that can be used on any occasion.

### DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body are chiefly of four kinds, viz.—The Tape, or large round worm; the Ascarides, or small may-worm; the Cucubaria, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to a tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & acid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face coated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of chint—a dreadful disorder, which annually destroys the hands of the inferior part of our citizens, and likewise the mildest and most

remedy known, and has restored to health and strength a great number who in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases. Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

### Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, asthmatic, cold, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, &c.

### The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellant minerals, the basis of other lotions) and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

### The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which is apt to accumulate, never fails to injure and finally ruin them.

### Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent intoxication, or any other destructive intemperance, the unskillful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

### HAMILTON'S ELIXIR.

Sovereign remedy for Colds, obstructed Coughs, Asthma, sore throats, and approaching Consumptions, and various disorders of the breast and lungs.

### Hahn's genuine Eye Water.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

### Tooth Ache Drops

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

### Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

### Lee's Infallible Ague and Fever Drops.

For the cure of agues, remittent, and intermitting fevers.

### Hahn's true & genuine Gummy Corn Plaster.

## ROBBERY.

On the night of the 6th of December, 1816, the Exchange Office of the subscriber, Bridge street, Georgetown, from appearances by a false key, was robbed of the following property, in specie, consisting of dollars, change, American and English gold, about 200 dollars; bank notes, mostly three dollar notes of the bank of Washington, and some small tickets, together about 30 dollars, a one pound note of the bank of England, and one hundred and sixty four lottery tickets as per numbers below. The lottery tickets can be of no use to the persons taking them, and an attempt to pass them would only lead to a detection, it is therefore hoped that the person or persons who took them, will return them to the subscriber through the Post Office at Georgetown. A liberal Reward will be paid by the subscriber for any information that may lead to the discovery of the persons or a recovery of the property. All keepers of lottery offices in the United States will please to keep a list of the numbers of the following tickets, as it may lead to a discovery of the theft.
